

## Instructions:

Cut out the snowmen, paste them onto cardboard and cut it out again. It'll make the puzzle pieces more stiff and usable for a longer time.

### Game 1:

Place the cutouts on a table with the snowmen facing up. Ask your child to find the ones that match together.

### Game 2:

Take the cut out snowmen and place them on the table upside-down. Play memory.

### Game 3:

Place the cut out snowmen (use blue tack so you can use the snowmen again) on a big piece of paper and ask your child to draw lines between the two snowmen that match.

This is an example – there are bigger snowmen on a spate sheet.
