

## Instructions for the 'snake' puzzle

1. Please print out the snake picture ( A4 size) also provided under this unit's activities.  
(you can find any other snake picture, this year's zodiac animal, in the web).

2. Cut the picture into 4 or 6 pieces. If your child is good in making puzzles you even can cut the picture into more pieces or make the cuts more complex.
3. Provide you child with a colored paper as a background (preferable red or yellow since these two colors are Chinese New Year or lucky colors) and ask your child to fit the pieces together.
4. And last, ask your child to paste the pieces onto the colored paper.
